- (a) the aggregate content (value of such inputs plus domestic value addition in further manufacture) is not less than 50 percent of the FOB value;

<sup>5</sup> Non-originating material means material originating from countries other than Contracting States and material of undetermined origin

- (b) the domestic value content (value of inputs originating in the exporting Contracting State plus domestic value addition in further manufacture in the exporting Contracting State), is not less than 20 percent of the FOB value; and
- (c) the final product satisfies the condition of
  - (i) change in classification at the four digit-level (CTH) as provided under Rule 8 (a) (i); or

- (ii) the products have not entered into trade or consumption there;

(iii) the products have not undergone any operation there other than unloading and reloading or any operation required to keep them in good condition.

(iv) the products have remained under the customs control in the country of transit.

### **Rule 13 : Treatment of packing**
