## SCHEDULE-III

1. No candidate shall be eligible for appointment to a cadre post unless he/she has been certified by a Medical Board to be medically fit for such appointment and that he/she does not suffer from any such organic defect as is likely to interfere with the duties of the cadre post for which he/she may be considered. Successful completion of the medical exmination does not, however, guarantee appointment to any cadre post.

2. The Medical Board shall be constituted by the Director-General, Health Services, hereinafter referred to as the Director-General, to examine the physical fitness of the candidates for appointment through the Bangladesh Civil Service Examination on the request of the Bangladesh Public Service Commission. The Director-General will determine the date, place and other requisites for the examination in consultation with the Commission and communicate it to the candidates. Efforts will be made to hold the medical examination during the period contemporaneous to the dates of the *viva voce* test.

3. The minimum number of Members of the Board shall be three but the maximum number of Members may not be more than five.

4. A candidate shall appear at the medical test on the date specified by the Director-General. Under exceptional circumstances, Government may allow the candidate to appear at the medical test at a later date in consultation with the Director-General.

5. The Director-General shall submit the report of the Medical Board on each of the candidates to the Bangladesh Public Service Commission in the Form for Medical Examination Report enclosed to this schedule.

6. Candidates whose height is less than 5 feet will not be considered physically fit for appointment to any cadre post. Candidates whose weight is less than 110 lbs. should be considered temporarily unfit. In the case of female candidates,

this standard will be reduced to 4 feet 10 inches, provided the weight of such candidates is not less than 96 lbs.

7. In the matter of the correlation of age, height and chest girth, the Medical Board will apply the following Table as a guide in the examination of the candidates:

Height with shoes.	Chest measurement of full expiration	Range of expansion not less than
Inches	Inches	Inches
60 and under 65 inches	30	2
65 and under 68	31	2
68 and under 70	32	2
70 and under 72	33	2
72 and upwards	34	2

8. The candidates height will be measured as follows:

He/she will remove his/her shoes and be placed against the standard with his/her feet together and the weight thrown on the heels and not on the toes or outer side of the feet. He/she will stand erect without rigidity and with the heels, calves buttock and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.

9. The candidates chest will be measured as follows:—

He/she will be made to stand erect with his/her feet together, and to raise his/her arms over his/her head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder blades behind, and lies in the same horizontal plane when the tape is taken round the chest. The arms will then be lowered to hang loosely by the side and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times and maximum expansion of the chest will be carefully noted and the minimum will then be recorded in inches, 33-35 34-36/1/2 etc. In recording the measurements, fractions of less than  $\frac{1}{2}$  inch should not be noted.

10. The candidate will be weighed and his/her weight be recorded in pounds, fractions of pound should not be noted.

11. The candidate's eye sight will be tested as follows:

- (i) **General**—The candidate's eyes will be submitted to a general examination directed to the detection of any disease or abnormality. The candidate will be rejected if he/she suffers from any squint or morbid condition of eyes, eyelids or contiguous structures or such as sort as to render or to be likely at a future date to render him/her unfit for service.
- (ii) **Visual Acuity**—A. The examination for determining the acuteness of vision includes two tests, one for distant, the other for near vision. Each eye will be examined separately.

- B. No candidate will be considered fit for the service whose visual acuity falls below the following standards:

## STANDARD—I

Right eye		Left eye

*N.B.* No relaxation of the standards of vision will be allowed.

Each eye will be examined separately and the lids must be kept wide open during the test.

Snellens test types will be used for the test for distant vision without glasses at a distance of 20 feet, and for the test for near vision, without glasses, at any distance selected by the examiner.

- (c) Each eye must have a full field of vision as tested by hand movements.
- (iv) The degree of acuteness of vision of all candidates for appointment will be entered in the proceedings in the manner.

(A contact glass or lens is defined as a glass shall, the concavity of which is in contact with the globe of the eye, a layer of liquid being interposed between the lens and the cornea. The meaning of the word "glass" wherever used above is to be interpreted as not covering contact glass).

In support of this the candidate will be required to produce certificate signed by Medical Officer, and that the candidate is free from communicable disease.

14. When any defect is found, it must be noted in the report and the medical examiner should state his opinion whether or not it is likely to interfere with the efficient performance of the duties which will be required of the candidate. It should be stated whether the condition is remediable by operation.

15. If a candidate is declared unfit by the Medical Board, he/she will be informed that he/she has been declared unfit. The candidate will also be informed of the particular defect or defects for which he/she has been declared unfit. The candidate may prefer an appeal against the decision of the Medical Board to the Bangladesh Public Service Commission within 14 days of receipt of the information.

16. Government, however, reserves the right to deal with the appeal in such manner as it may deem fit and do not bind itself to constitute an Appellate Medical Board for the examination of the candidate concerned.

17. If, however, Government decides to accept such appeal, the Appellate Medical Board will be constituted by the Health Division which will also decide about the date and place for re-examination and also the composition of such Board.
